AACE International's

PLANNING & SCHEDULING PROFESSIONAL (PSP)

AACE International's Planning & Scheduling Professional (PSP) certification program is designed to establish credentials for the Planning and Scheduling Professional. This certification program gives professionals a means to validate their skills and knowledge. PSP certification will distinguish you as a Planning & Scheduling Professional who has the knowledge and skills that impact the bottom line.

While many professionals do planning and scheduling, until recently there was no way to effectively measure such capabilities - except through real-life performance.

AACE's PSP certification provides an exam and experience validation that lets employers identify those who meet the program's competency standards.

Earning a PSP is a mark of distinction.

What is a Planning & Scheduling Professional (PSP)?

A distinguished task force of industry experts from both private and public sectors assembled by AACE International created the PSP examination in 2004. In 2007, it earned accreditation by the Council of Engineering & Scientific Specialty Boards (CESB) and the International Cost Engineering Council (ICEC.) The intent is to recognize specialists who meet a demanding set of planning and scheduling criteria by a rigorous examination, experience, education and ethical qualifications. PSP requirements reflect the sophistication of individuals in today's planning and scheduling industry and it fairly measures their knowledge, experience and adherence to best management practices.

PSP certification distinguishes Planning and Scheduling Professionals who have the knowledge and skills that impact the bottom line. AACE certification ensures a high quality standard.

AACE's certification experience is extensive. AACE has offered certification since 1976, and has other programs accredited by the Council of Engineering & Scientific Specialty Boards (CESB) and the International Cost Engineering Council (ICEC).
